Courses & Internships

- Java Full Stack Development Course Satya Technologies** Aug 2024 - March 2025
 - I completed an intensive Full Stack Development course that covered both front-end and back-end technologies, with a strong focus on hands-on learning.
 - During the program, I developed several projects using Java, Spring Boot, Hibernate, REST APIs, and Oracle (SQL), gaining practical experience in building scalable web applications and implementing microservices architecture.
- Web Designing Intern Webakruti** April 2023 - May 2023
 - Designed interactive and responsive websites using Bootstrap, HTML, CSS, and JavaScript.
 - Created a personal portfolio project and received positive feedback for UI/UX design skills.
- Web Development Intern VaultOfCodes** March 2023- April 2023
 - Built interactive and user-friendly web applications using HTML, CSS, and JavaScript, with a focus on responsive design and visual appeal.
 - Developed a Tic-Tac-Toe web game showcasing game logic implementation, event handling, and DOM manipulation for smooth and engaging gameplay.

Projects

- FoodMart React Application**
 - Developed an Online Grocery Marketplace that allows users to browse and manage a variety of grocery items, add them to a shopping cart, and complete their purchase with ease.
 - The system features functionalities such as adding/removing items from the cart, increasing and decreasing item quantities, searching for products, and applying discount coupons to orders.
 - Users can also maintain a purchase history for easy tracking of past orders.
- Tic-Tac-Toe Game Web Application**
 - Built a responsive and interactive game using HTML, CSS, and JavaScript.
 - Applied game logic, event-driven programming, and DOM manipulation techniques.
 - Enhanced the UI/UX for better user engagement.
